

The most pressing obstacle in LPA's path to provide even more of its benefits is SPACE. LPA's successes academically, athletically, and in creating a school environment encouraging Judeo-Christian and Constitutional American values have led to exponential growth, AND WE NEED MORE SPACE!

We have exceeded capacity in our current facility and the requests for admissions from both local and international students are ever increasing.

LPA's current enrollment is 412, and we have a building that was built to hold only 250 students. We have added five annex buildings with classrooms across the street from our main building. We are out of space in bathrooms, kitchen, athletic spaces, lunchroom, classrooms, auditorium, and offices. The gym serves as a lunchroom and classroom throughout the day limiting the time available for our athletes.

After many years of prayer and searching, LPA was able to purchase the two story Best Western Hotel and Convention Center located at 915 E 53<sup>rd</sup> St N, in Park City. The building is located 10 minutes from our present site and centrally located off highway 135 between Newton and Wichita. When renovated to our needs, it will increase school capacity by over 135% and our common space by 15,800 sq ft. Our dorm will now be on-site and have room for additional international students.

LPA's commitment to provide a best-in-class educational environment will greatly benefit from the added space. The new site will house a library, STEM wing, large lecture hall, two fully equipped science labs, two computer labs, a robotics and engineering lab, a fully equipped kitchen/cafeteria, ample bathrooms, elevator, expanded offices, more classrooms, and meeting spaces. Additionally, outdoor space exists for building a state-of-the-art athletic and training center, as well as an interactive playground for our primary grades.

Our current timeline calls for the dormitory and cafeteria at the new facility to begin operations by August 2022. The school will complete its move by August 2023.

God provided an answer to prayers with our purchase of this new building. We also believe He will provide us the resources to fund the transformation of this hotel to a school that is community engaging and world changing. We know if the vision is God-given, He will also provide the resources.

This project will allow us to impact Wichita by providing more affordable options to public schools which are desperately needed. We plan as well to host athletic tournaments and provide summer and after school camps and programs. We will launch Life Prep Tech, a partnership with WSU Tech, to offer career pathways to students from all over our community.

Life Preparatory Academy truly believes that with financial support from generous supporters, numerous alumni, local businesses, and other community stakeholders who trust in our mission and goals we will make a significant impact for generations to come!
